

RunCam SKY 650TVL Mini Metal Casing FPV camera 2.8mm Lens

Product Details Sales Rank: #12607 in Camera & Photo Brand: RunCam Model: US-SKY-L28-N-FBA Features Elaborate optimization program, it is specialized in dealing with strong light and has more vivid image show than other FPV cameras. Mini Size: 26*26mm Mini size and arc-shaped edge helps it largely reduce the wind drag and stable the model ship airplane. With these features, Sky is suitable for various type of plane. New aluminum design case makes the camera lighter and more exquisite. Weight only 18.2g with case. The small size and lighter weight make SKY more flexible to model planes or drones in various size. With new split 3pin FPV cable, free to plug it and it has 400mm whole length for any RC airplane use! Brand new back plate design with separate OSD and power supply, makes it much easier to adjust settings.

Product Description A new released aluminum Mini Camera dedicates to FPV players. With the improvement of picture quality, the size and anti-dazzling function are highly optimized elaborately for FPV use. Note: The camera is adapted with the sense infrared filter. The power adapter is not included Please note: The current version of RunCam SKY is not completely compatible with MAX7456 chip OSD (Blurred OSD display or flickering) Package: 1 X Camera 1 X Cable 1 X FPV Cable 1 X Metal holder 1 X Manual

Super camera using it for FPV on my miniquad .Very pleased. This is my second one and I will buy more. Jim Collins

Camera has awesome picture and color, BUT if your using virtually any osd this camera is not compatible it distorts and stretches the numbers and letters to the point that it is completely unflyable. Tested with 3 different brand new sky's.

Just installed this camera on my new Blackout 330 with TBS OSD Pro. The camera looks terrible when using OSD....the letters flicker and are stretched. Was going to ask for a replacement but I did some research and found out that nobody can get this camera to work properly with OSD. See all 3 customer reviews...
